Response to Request for Information dated February 1, 2015 with Identification Number C00556084

Donations to the campaign were deposited each Friday. A copy of the deposit receipt and its associated checks were forwarded to the Treasurer. For the donations in question, they were deposited on Friday, August 1, 2014. The deposit receipt and associated checks were emailed to the treasurer on Monday, August 4, 2014, the next business day. That day, being the day before the election, the two donations in question were not noticed. This was an oversight, and there was no intent to violate the rule. All other qualifying donations were reported.
